

THE DRAKE MAYE SUPERFANS

WEEK 1 • INAUGURAL DYNASTY SEASON • SEPTEMBER 15, 2026

even if it didn't come with a win.

Colin B celebrates after a dominant week 1 performance, securing the top spot in the league and the Point For side pot.

SAME LEAGUE. DIFFERENT LEVELS.

THE REST OF WEEK 1

Blowout of the Week

Colin M 162.44 | David 73.10

89.34 point margin

Colin M's 162.44 was the third-highest score in the league, while David's 73.10 was the lowest. That's not a matchup — that's a wellness check.

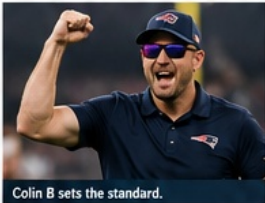

David's Week 1 mood.

GM of the Week

Colin B

League-high score. 1-0 record. Beat the second-highest scorer. It's hard to argue with the results.

Colin B sets the standard.

Galaxy Brain Move

Mike

Started BOTH Joe Burrow and Jalen Hurts in Superflex. Finished with 161.78 points and a win. Obvious? Yes. Smart? Also yes.

Two QBs. One genius (maybe).

COLIN B OPENS THE SEASON WITH A STATEMENT

183.62 points. The inaugural Week 1 scoring crown belongs to Colin B, who knocked off Mark 183.62–170.02 in the highest-scoring matchup of the week. Mark's 170.02 would have beaten 10 of the other 11 teams, but he happened to draw the one roster that scored more.

GAME OF THE WEEK	BLOWOUT OF THE WEEK	GM OF THE WEEK
Colin B 183.62 Mark 170.02	Mike 161.78 Tim 99.10 62.68 margin	Colin B 183.62 pts • 1-0

MONDAY NIGHT FALLOUT

The Monday night numbers changed the scoreboard, but not the winners. Patrick Mahomes gave David a 22.66-point fantasy night, moving his final score to 113.76. Bo Nix added 8.44 for Colin M, bringing Colin M to 168.88. The final totals are now locked in.

THE UNLUCKY BASTARD CLUB

Mark is the first inductee. A 170.02-point performance at 0-1 is the fantasy equivalent of doing everything right and still getting mugged in an alley. The consolation prize: a \$12.50 #1 Points side-pot payout.

THE WEEK 1 LEDGER

Every matchup. Every result. Every excuse.

WINNER	PTS	LOSER	PTS	HEADLINE

Colin M	168.88	David	113.76	Colin M wins by 55.12. Mahomes helped; the comeback did not happen.
Mike	161.78	Tim	99.10	Mike wins by 62.68. The commissioner claims this was all part of the plan.
John	165.82	Javier	111.70	John wins by 54.12. Quietly one of the strongest opening weeks.
Maine	158.66	Cole	147.90	Maine wins by 10.76. The Giants Year prophecy remains alive.
Chris W	125.26	Chris M	106.26	Chris W wins by 19.00. Chris M can take it up with Twitter.

POWER RANKINGS

Subjective. Unapologetic. Based on one week of evidence.

#	TEAM	VERDICT
1	Colin B	183.62 and 1-0. The league-high score earns the crown.
2	Colin M	168.88 and 1-0. Second in scoring and a 55.12-point win.
3	John	165.82 and 1-0. Huge opening score and a convincing win.
4	Mike	161.78 and 1-0. The biggest blowout and a strong QB room.
5	Maine	158.66 and 1-0. Efficient, undefeated, and still preaching the Giants Year.
6	Mark	170.02 and 0-1. The best 0-1 team by a mile. Extremely unlucky.
7	Cole	147.90 and 0-1. Good enough to win plenty of games; ran into Maine.
8	Chris W	125.26 and 1-0. Not flashy, but the only number that matters is 1-0.
9	David	113.76 and 0-1. Mahomes supplied the Monday night bump; the loss remains.
10	Javier	111.70 and 0-1. Needs a bounce-back before the streaming-site jokes get worse.
11	Chris M	106.26 and 0-1. Twitter remains undefeated.
12	Tim	99.10 and 0-1. Week 1 was not kind to the roster that looked terrifying on draft night.

THE COMMISSIONER'S NOTEBOOK

FRAUD WATCH

Tim. 99.10 points from a roster that looked terrifying on paper. There is plenty of season left, but Week 1 did not inspire confidence.

STOCK UP

Colin B: 183.62. Colin M: 168.88. John: 165.82. Mike: 161.78 and a 62.68-point win. The early contenders have announced themselves.

STOCK DOWN

Tim and David. Both finished below 115. David at least got the Mahomes bump; Tim needs his stars to start acting like stars.

GALAXY BRAIN MOVE

Mike starting both Jalen Hurts and Joe Burrow in a superflex league was exactly what the format demands. It also makes the commissioner look annoyingly prepared.

BONEHEAD MOVE

Tim's 99.10. No further questions at this time.

LEAGUE CANON

Colin B is the early target. Mark is the unlucky bastard. John quietly put up 165.82. David needs answers. Tim needs production. The Superflex QB arms race is officially underway.

AROUND THE LEAGUE

Week 1 produced four teams above 165 points and six above 147.90. The top of the league is already crowded, and Mark's 170.02 proves that a great roster can still open 0-1.

WEEK 2 WARNING

The side pot is back. \$5 entry fee per player, due before Thursday Night Football kickoff. Five players paid in Week 1. Pay your damn five dollars.

FINAL WORD

Week 1 is officially in the books. Colin B owns the scoreboard. Mark owns the #1-points side pot. Mike owns the biggest-blowout side pot. John quietly cracked the 165-point barrier. And everyone else has approximately one week of evidence for whatever argument they plan to make about their roster.
